There was an error during the fax submitted at 11/30/2004 at 5:43 AM Eastern time by myself Joseph Moylan, concerning the submission of prior art materials concerning Carter et al Patent Application #10/782,353.

On page 3 of the prior art descriptions, Below the signature was given a Patent Number. This is the wrong Patent number. The correct patent number by the patentee disclosing the prior art is US Patent 5,740,987.

Also, on page 3, left column, 2nd paragraph is another error. The patent number listed is 5, 740, 980. Again this is incorrect. ALL of the Morris et al Patent #'s throughout the paper used as the prior art reference, should be #5,740,987. I apologize for this error and the error was due to sticking keyboard keys.

Very Sincerely,

Joseph Moylan
Patent Owner #5, 740, 987
